EDUCATION

- **ICFAI Tech University, Hyderabad** 2026
Bachelor of Technology - Computer Science and Engineering CGPA: 8.74
- **Sri Chaitanya Educational Institutions, Hyderabad** 2022
Intermediate: Class XII 97.6%
- **Kendriya Vidyalaya, Hyderabad** 2020
Senior Secondary: Class X 91.4%

SKILLS SUMMARY

- **Programming Languages:** Python, Java, SQL
- **AI & Data Technologies:** Pandas, NumPy, OpenCV, YOLO , Data Cleaning, Data Validation, ETL (Basics)
- **Visualization & Tools:** Power BI, Matplotlib, Git, GitHub
- **Core Subjects:** Data Structures, DBMS, Computer Networks, Computer Vision, Software Engineering
- **Soft Skills:** Leadership, Public Speaking, Event Management, Team Collaboration

EXPERIENCE

- **Nu10 Technologies** Remote
AI Intern 2026 – Present
 - Built **OCR quality evaluation** and document validation systems using parameters such as **blur, DPI, brightness, contrast, and text quality analysis** for diverse document workflows.
 - Researched and implemented **image processing techniques** to improve OCR preprocessing, document readiness assessment, and extraction consistency across diverse document types.
- **Codeplayers Business Systems Pvt. Ltd.** Remote
Software Development Trainee May 2024 – July 2024
 - Designed **responsive frontend components and dashboards** for **ERP modules** using ReactJS, Bootstrap, and CSS.
 - Integrated **REST APIs** for authentication, reporting, and workflow management features across multiple ERP platform modules.

PROJECTS

- **NutriSense** (*React.js, Gemini API, PostgreSQL, Supabase*) **2026:**
 - Built an **AI-powered digital pantry and nutrition platform** for tracking meals, monitoring nutritional intake, and managing pantry inventory based on user health goals.
 - Implemented a pantry-aware recommendation system using Gemini API to provide personalized dietary suggestions and culturally relevant nutrition insights based on available household ingredients.
- **VisionVoice AI** (*Python, OpenCV, YOLOv8, BLIP, gTTS*) **2025:**
 - Developed an **AI-powered assistive system** that combines real-time object detection and scene understanding to generate intelligent audio-based environmental descriptions for visually impaired users.
 - Integrated YOLOv8, BLIP, and text-to-speech workflows to identify surrounding objects, generate contextual scene captions, and deliver natural audio assistance from visual input.
- **Chemical Equipment Parameter Visualization** (*Django, React.js, PyQt5, Chart.js, Matplotlib*) **2025:**
 - Built a **hybrid web and desktop analytics platform** for real-time monitoring and visualization of industrial equipment performance data.
 - Designed interactive dashboards and integrated Django REST APIs with React-based interfaces to support parameter tracking, trend analysis, and analytics workflows.

ACHIEVEMENTS

- **Smart India Hackathon (SIH) Internal Hackathon 2025 – 3rd Position:** Developed a solution focused on digitizing tribal governance records and paper-based workflows.
- **NPTEL Elite + Top 5% Certification:** Introduction to Industry 4.0 and Industrial Internet of Things.
- **AWS Gen AI Hackathon 2024 – Runner-Up:** Built an AI-powered food recommendation application using AWS PartyRock.
- **Merit Scholarship Recipient (Rs. 7.25 Lakhs):** Awarded for consistent academic excellence and performance.

CERTIFICATIONS

- AWS Academy Cloud Foundations Graduate – 2025
- NASSCOM Gold Certification – Exploratory Data Analysis
- NASSCOM Silver Certification – Data Processing & Visualization

LEADERSHIP EXPERIENCE

- **Founding Lead – Google Developer Groups on Campus IFHE** 2024 – 2025
 - Conducted technical events, study jams, and community engagement activities impacting 100+ students.
